

ANDURIL

Robotic Defense and AI Command Systems

Rainmaker Securities presents Anduril as the October 2026 Raindrop of the Month. Founded in 2017, Anduril has rapidly established itself at the forefront of modern homeland defense. Instead of sending thousands of foot soldiers into enemy territory, Anduril builds battle-ready machines and sensors designed to be controlled from overseas. From AI-piloted vehicles to state-of-the-art devices to Lattice (an AI command system coordinating and directing all the machines at once), Anduril has revolutionized the frontier of defense. Just nine years in, they are one of the most requested names on our desk.

ARMY CONTRACT

10-year ceiling, March 2026

Live fire. A YFQ-44A Fury fires an AIM-120 AMRAAM over the Mojave Desert, July 2026. The first missile shot by any U.S. drone of its class. U.S. Air Force photo.

WHAT THEY BUILD

Autonomous aircraft

Fury flies alongside F-35s as a drone wingman, while Ghost and Altius cover strike and reconnaissance.

Sensors & scanners

Sentry towers and Wisp cameras monitor borders and bases and identify threats automatically.

Undersea & surface

Ghost Shark and Dive-LD autonomous submarines, plus unmanned surface vessels built with HD Hyundai.

Missiles & interceptors

Barracuda cruise missiles designed for mass production, and Roadrunner, a jet-powered interceptor that can be reused.

Air defense & tracking

Anvil knocks hostile drones out of the sky and Pulsar jams them. Both are in service with U.S. forces.

Soldier systems

EagleEye, the mixed-reality helmet program Anduril took over from Microsoft.

Lattice: AI central command

Every Anduril system reports into Lattice: a singular AI command and control platform (the AI general of the army). Lattice processes all these feeds at once, calculates, and directs thousands of machines simultaneously to do its bidding in real time.

2026 SO FAR

MARCH

Army signs a ten-year enterprise contract with a \$20B ceiling, replacing more than 120 separate procurements. Fury production begins at Arsenal-1 in Ohio.

MAY

\$5B Series H closes at a \$61B valuation, led by Thrive Capital and Andreessen Horowitz. Roughly double the June 2025 round.

JULY

Fury fires a live AIM-120 AMRAAM. First Ohio-built aircraft rolls out three months early. Reuters reports talks for a round near \$100B, unconfirmed.

SEPTEMBER

Fury flies in formation with F-35s, and the Air Force now flies one daily from Creech. Roadrunner and Barracuda join the Ohio line by year end.
