

ANDURIL

Robotic Defense and AI Command Systems

"It's just really grown a lot faster than I anticipated. I thought we'd be five, six years from now at this point."

BRIAN SCHIMPF, ANDURIL CEO,
SOURCERY PODCAST, DECEMBER 2025

Rainmaker Securities presents Anduril as the October 2026 Raindrop of the Month. Founded in 2017, Anduril has rapidly established itself at the forefront of modern homeland defense. Instead of sending thousands of foot soldiers into enemy territory, Anduril builds battle-ready machines and sensors designed to be controlled from overseas. From AI-piloted vehicles to state-of-the-art devices to Lattice (an AI command system coordinating and directing all the machines at once), Anduril has revolutionized the frontier of warfare! Just nine years in, they are one of the most requested names on our desk.
